

## A REMINDER FOR THE PEACE DELEGATES

Victims of German brutality during their last retreat.

Examples of German treachery and brutality, even after the signing of the armistice, are spurring the reparation committee of the

peace conference in their work of listing the claims against Germany. The photo shows Belgian peasants wounded by a hand grenade

thrown among them by the Germans during the final retreat through Belgium. An American ambulance came to the rescue.

ATTORNEY TELLS  
HOW HIS CLIENT  
KILLED FAMILY

Lawyer for Defendant Re-counts Tragic Quarrel of Family Group

(By Review Leased Wire)  
TACOMA, Wash., Feb. 15.—H. E. Burnett, on trial in the Thurston county court charged with the murder of his wife and two children, according to a statement of his attorney in court today, shot and killed his wife and children while they stood with their backs to a tree. The shooting occurred on Hawkes prairie near Olympia.

Burnett, according to the statement in court, after the shooting buried the bodies in the woods. The attorney said Burnett fired the shotgun at his family while in a rage and suffering from mental derangement.

The attorney declared Burnett and his wife had quarreled and that Burnett had fired the fatal shot after his wife had told him another man was the father of her youngest child.

The attorney, George F. Yantis, told how he and Burnett had made the journey to Hawkes prairie on a summer's day; how Mrs. Burnett began quarreling with her husband and demanded that he turn all his money over to her.

Then the attorney related how after a heated controversy, Mrs. Burnett turned to her husband and declared: "You always suspected that our youngest child was not yours, and now I'm going to tell you that another man is its father."

"Then Burnett completely lost his mind," Yantis cried. "He flew in a wild rage and grabbed up a shotgun which he had brought to the woods to try out."

"When his wife saw that she had driven him to desperation, she ran from his side to a spot near a tree where the two little children were standing."

"Burnett through eyes of fury and with brain deranged, fired point blank at the family group," Yantis told how Burnett related to him the incidents that followed. Burnett told Yantis, the latter said, that he examined the bodies in a half dazed way and saw spots of blood on the mother and children.

"Then, he says he believes he fired another shot," said Yantis. "This last shot he believes did the work. Then wrapping up the bodies of the two children and the mother, he buried them."

BETTER HIGHWAYS  
FOR MOUNTAIN  
REGIONS URGED

Chairman of Board Declares Road Question Will Be Taken Up Soon

(By Review Leased Wire)  
Improvement of the roads leading to the various resorts in the Huachuca and Chiricahua mountains, would mean that hundreds of Arizonans who now spend their summers and many thousands of dollars in California each year, would journey to the mountains instead, and this money be put in circulation in the state, in the opinion of I. C. E. Adams, chairman of the board of supervisors of Cochise county.

"To many people a movement on the part of the supervisors to improve the mountain roads would not appear, because it would appear that the county was improving roads for the benefit of the individual resorts," said Mr. Adams. "I am convinced that in the end this would be the best economy and would result in keeping more money in Arizona annually than the initial cost of the roads would amount to."

"In Berner canyon of the Huachuca mountains there is a very pleasant resort, visited during the summer by hundreds of Bisbee people and residents of other parts of the county. In the Chiricahua mountains there are several canyons which are popular as camping places."

"The only trouble with any of the present resorts is their inaccessibility. I believe that the supervisors would be justified in repairing the roads leading to them, putting them in first class condition, and making it easy for Cochise county people to reach them. Not only would it be encouraging home industry, but it would provide work for a good many men who need work at the present time."

Mr. Adams said he intended to bring the matter to the attention of the other supervisors in the near future. He also would insist, he said, upon men working on such roads being paid a minimum wage of \$5 per day.
